MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS OVERVIEW AND OUTLOOK

The Group is a well-established information and communications technology (“ICT”) solution provider headquartered in Singapore focusing on the provision of cyber infrastructure and cyber security solutions. Established in 2002, the Group started as a system integration service provider providing services to telecommunications service providers. Having gradually diversified its ICT services, the Group is now a regional provider of cyber infrastructure solutions in Southeast Asia. By working with various technology vendors, the Group acquired the experience and expertise to evolve to an ICT solution provider. Drawing upon its research and development (“R&D”) capability, the Group successfully developed its technologies to provide cyber security solutions.

The emphasis on the Group’s R&D capability gained significant achievement. During the year ended 31 December 2018, the Group successfully developed its own cyber infrastructure, known as Netsis Hybrid Converge Hub, which broadened the Group’s source of revenue. During the three months ended 31 March 2019, more resources were invested by the Group for the development of Netsis Security Hub in Hong Kong (the “Security Hub”). The Group expects that the Security Hub will be launched in the year of 2019, which will further broaden the source of revenue of the Group.

The Group has continuously invested resources in professional and experienced engineers, R&D team’s software and hardware, and its own cyber infrastructure. The Group will continue its focus on strengthening itself as an all-rounded ICT solution provider in Asia Pacific region by diversifying and reinventing R&D approach for the development of new products and the enhancement of existing products and services continuously for potential customers.

As a result of trade tensions between the United States and the PRC in the year of 2018, the Group’s business development in the PRC was decelerated since the second half year of 2018. Therefore, the Group reallocated its internal resources and capabilities to the business in Southeast Asia.

In order to enhance the core competence of cyber infrastructure solutions and cyber security solutions, to diversify the Group’s business risks and to utilise the Group’s internet resources and capabilities effectively, the Group will continue to explore and expand the business in new markets, including but not limited to, Europe, Middle East and Africa regions.

The reportable segment results (Adjusted EBITDA) in cyber infrastructure solutions segment decreased from profit of approximately US\$504,000 for the three months ended 31 March 2018 to profit of approximately US\$123,000 for the three months ended 31 March 2019. The decrease was mainly due to the completion of significant parts of a substantial project for a client based in Myanmar during the three months ended 31 March 2018 whereas the scale of new projects completed during the current period were less significant.

Regarding the reportable segment results (Adjusted EBITDA) in cyber security solutions segment, the amount decreased from profit of approximately US\$60,000 for the three months ended 31 March 2018 to loss of approximately US\$23,000 for the three months ended 31 March 2019. The decrease was mainly due to the smaller scale of project completed during current period.

The Group is in the process of negotiating several new projects mainly with customers in Southeast Asia and aiming to generate additional revenue in the coming quarters of 2019. With the Group's strong R&D capabilities, well established and diversified customer base, and experienced and dedicated management team, the Group believes that the demand for the cyber infrastructure solutions and cyber security solutions will remain strong. In addition, it will give the Group an advantage in further establishment of a better reputation in the market, and a leading position in the cyber infrastructure and cyber security solutions industry.

CORPORATE GOVERNANCE CODE

The Corporate Governance Code (“the Code”) in Appendix 15 to the GEM Listing Rules sets out the principles of good corporate governance, code provisions and recommended best practices. Issuers are expected to comply with the code provisions or devise their own code on corporate governance on the terms they consider appropriate provided that considered reasons are given.

For the three months ended 31 March 2019, the Company had complied with the applicable code provisions of the Code with the exception of the deviation from code provision A.2.1 as explained below:

Code provision A.2.1 of the Code requires that the roles of chairman and chief executive officer should be separate and not performed by the same individual. Given that Mr. Foo has in-depth knowledge and experience in the IT industry and familiarity with the operations of the Group, that all major decisions are made in consultation with members of the Board and relevant Board committees, and that there are three independent non-executive Directors on the Board offering independent perspectives, the Board is therefore of the view that there are adequate safeguards in place to ensure sufficient balance of powers and authorities between the Board and the management of the Company and that

it is in the best interest of the Group to have Mr. Foo taking up both roles. Accordingly, the Company has not segregated the roles of its chairman and chief executive officer as required under code provision A.2.1 of the Code.

Except for the deviation from code provision A.2.1 of the Code, the Company's corporate governance practices had complied with the Code as set out in Appendix 15 to the GEM Listing Rules for the three months ended 31 March 2019.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES OF THE COMPANY

Neither the Company, nor any of its subsidiaries purchased, sold or redeemed any of the Company's listed securities during the three months ended 31 March 2019.

CODE OF CONDUCT REGARDING SECURITIES TRANSACTIONS BY DIRECTORS

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less than the required standard of dealings as set out in Rules 5.48 to 5.67 of the GEM Listing Rules as the code of conduct for securities transactions by the Directors in respect of the Shares ("the Code of Conduct").
